## Environmental Policy Statement 2023

### Volta principal

Volta Trucks is dedicated to being an organisation that both society and our interested parties want to exist by:

- Operating sustainably.
- Being competitive and cost effective.
- Providing products and services of the highest quality.

These principal informs our Quality and Environmental Policies.

### **Environmental Policy**

We are committed to protecting the local and global environment from the effects of our operations.

To minimise our environmental impact, we ensure our actions are:

- Appropriate to the nature and scale of the company's environmental impact and energy use.
- Consider existing business and planned or new or modified activities, products and services.
- Committed to continual improvement in performance.
- Committed to the prevention of pollution of the environment.
- Provide the framework for setting and reviewing environmental and energy objectives and targets.
- Support the purchase of environmentally friendly products and services which will minimise pollution.
- Support the purchase of energy-efficient products and services.
- Committed to comply with applicable legal requirements and with other requirements to which the company subscribes that relate to its environment aspects, energy use, consumption, and efficiency.
- Support the design of products that reduce energy consumption.
- The Senior Management Team is responsible for ensuring the actions stated in this policy provide the framework for setting environmental and energy objectives and targets and supporting the environmental and energy management systems to ensure their achievement.
